

Raleigh Area Cosmetic and Family Dental Practice, C. Ashley Mann, DDS, Celebrates Tenth Anniversary

Raleigh, NC -- The dental team at the offices of Dr. C. Ashley Mann is celebrating their tenth anniversary this year, in July of 2010.

With patients coming from the Raleigh, Durham and Chapel Hill metropolitan area, Dr. Ashley Mann, Dr. Ralph Dolfi, and their skilled team, have had the privilege of serving thousands of Triangle residents over the past decade.

"I'm very proud of the work Dr. Dolfi, our team and I have been able to do over the past ten years. We've grown substantially, faster than we anticipated, and are rewarded in treating our patients through the years," said Dr. Ashley Mann. The practice begins seeing children as toddlers and works with families and professionals. They also treat seniors and accommodate patients in wheelchairs and with special needs.

Dr. Mann's dental practice is committed to using the best new technologies, something patients appreciate. "As soon as I learned that Dr. Mann's office could treat my lost filling in one visit instead of the two visits that crowns usually need, I switched dentists on the spot," said one new client from the town of Apex.

The quality of the patient experience keeps patients returning and referring their friends and family members. The gentle care and attentive concern for patient comfort brings in patients who have fears and prior difficult experiences with dentists. "I have such trauma around dentists that I put off seeing a dentist for several years until I learned about Dr. Mann's reputation," said a new patient from North Raleigh. "I really liked the way I was treated by everyone in the office, and the special care I was given to reduce my anxiety and sensitivity to pain."

In addition to the quality of care, the practice offers patient comforts including hot and cold drinks, memory foam on the dental chairs and headsets for listening to music. While many dentists have stopped submitting claims to insurance companies, Dr. Mann's office still provides that service and offers financing resources.
